HVL ALL CONFERENCE

25975664. There seems to be no easy way to establishing a number for the AllConference selections. Each sport wants the maximum number of selections for their own good reasons. There needs to be some guidelines for such things as pairing and sharing of teams, teams that drop or teams that are added to the conference, and sports that are changed at each school within the conference.

II. The All-Conference policy should take into consideration two (2) things:

- A. The number of schools offering the sport
- B. The number of people who participate simultaneously on the field or court of play.

III. AllConference awards should be made only in sports in which 50% or more of the conference schools participate. If two schools pair they will be counted as two (2) schools.

IV. Team sports will select their All-Conference at the end of the season by the coaches. Sports that are classified as team and individual or individual only will select All-Conference by the winning person in each class or event in the conference tournament.

V. Any participant receiving a violation during the season of play cannot receive all-conference honors. Definition of season is beginning with the first day of practice through the last game/event. Fine Art activities season is from the time of selection through the concert.

Proposed formula: # of Teams (2007) X # of starters X N (.25)

The number of teams used in the formula will be determined each year by the number of teams that participate. EX. – if a team drops a sport for lack of players, the number will be reduced for that year.

HONOR CONCERT

I. NATURE

The Honor Concert is an evening concert performed by an Honor Chorus and Band consisting of selected students from the league schools. Students are selected to be in the chorus or band, but no individual may participate in both. The site of the concert is to be rotated yearly as indicated in the adopted rotation schedule for all HVL Music Events. The band and chorus are to be directed by guest conductors.

II. PURPOSE

The Honor Concert is an opportunity for the more talented and developed musicians of each league school to get together and perform in an organization made up of students of their own level of ability and accomplishment. The music selected should be of such a quality that it will provide an attainable challenge, a stimulating rehearsal situation and rewarding musical experience through its masterful performance.

It should also be kept in mind that our working together in the Honor group for a common goal of musical excellence should be utilized as a situation to foster good relations between student bodies of the various League Schools.

III. POLICIES AND PROCEDURES

A. SCHOOL REPRESENTATION

BAND - The number is to be dependent upon the number of qualified musicians available and the selection of individuals to be made at a meeting with all band directors present and mutual agreement reached. If it becomes impossible for a director to attend this meeting, he should see that the chairman has a list of his qualified musicians prior to the meeting, and those present will select from that list to complete the instrumentation. The actual placement of the individual within the section shall also be agreed upon at this meeting.

CHORUS - The number is to be dependent upon the number of qualified singers available and the schools representation is to be decided at a meeting with all choral directors present and mutual agreement reached. VOCAL AND INSTRUMENTAL CLINICS

I. NATURE

The HVL sponsors a vocal and instrumental clinic each year. Each school is given an allotted period of time in which the prepared selections are presented under their own conductor and then the group is taken over by the clinician for the remainder of the period.

II. PURPOSE

- A. The clinics are basically a critique for individual performance by a recognized authority.
- B. They provide an educational opportunity for the music students of the League Schools to observe what the other schools are doing.
- C. They provide an excellent motivation for the students in that they have an immediate goal in the preparation of clinic music to be presented at a specific time. The student's natural desire to excel in performance and be accepted as a musician enables a high caliber of preparation to take place.

III. POLICIES AND PROCEDURES

- A. **PREPARATION** -The degree of readiness of the music to be presented is up to the individual director. It should be understood, however, that a clinician can be of more service if the performing groups are past the notechasing stage. The criteria should be to come as well prepared as the school schedule and time will allow.
- B. **CLINIC HOSTS** - The music director of the host school shall be the manager of the clinic. His duties in general are to set up and manage the clinic. The specific duties shall include the following:
 - 1. Secure the approval list of clinicians and hire the clinicians.
 - 2. Draw up the actual schedule for the clinic.
 - 3. Take care of all the physical details of the clinic. This includes such things as sufficient stands, choral risers, good public address system, etc.
 - 4. Notify the directors in sufficient time as to the details of the clinic.
- C. **CLINIC TIME ALLOTMENTS** - A uniform time period is recommended for each school. It is

further recommended that not more than onethird of the period be used to present the prepared selections and that the other twothirds be given to the clinician. If a school plans to present more than one group, such as a mixed chorus and a glee club, the same ration should be kept. The clinician should be notified at the start of the period if more than one group is to be presented.

- D. WARM-UP - Each school should have the use of a warm up room immediately prior to the clinic period. All warm up and tune up should be accomplished at the warm up site.
- E. Snow dates for the winter clinics – in the event they are postponed due to bad weather.
 - For the Band Clinic – if there is a postponement it will be rescheduled within the next 2 days of the postponement date.
 - For the Choir Clinic – if there is a postponement it will be rescheduled the next Wednesday from the original date which would be one week later. (2012)

VOCAL AND INSTRUMENTAL CLINICS (cont.)

E. STUDENT PARTICIPATION

- 1. While at the clinic students shall in be one of four places warming up, performing, and observing, other sessions or at lunch at the specified time. Washroom facilities and privileges should not be abused.
- 2. Students are expected to observe a minimum of two other clinic sessions. (It is imperative that a good public address system be employed so that the performers and observers may clearly hear the clinician.)

F. STUDENT DRESS CODE

- 1. Students shall wear appropriate dress clothes.
- 2. The dress code shall apply throughout the day and deviation shall not be allowed.

H. DATES
